Idling Parked Cars around school.

Recently in the news there has been concern about the pollution produced by parked cars with their engines running especially around schools.

Put a stop to idling engines

Running your engine unnecessarily while your vehicle is stationary pollutes the environment. It's also against the law on a public highway.

What are the problems?

An idling engine can produce up to twice as many exhaust emissions as an engine in motion. Exhaust emissions contain a range of air pollutants such as carbon monoxide, nitrogen dioxide, and particulate matter. These can affect the quality of the air **we all breathe and the surrounding environment.**

Please if you are parked, turn off your engine. Thank you.

Healthy Schools - Nut and Kiwi Free

Just a reminder that we promote healthy lunches, and that we are a nut and kiwi free school.

Please ensure that if your child brings sandwiches to school that these do not have Nutella, or chocolate spread on them. Most of the chocolate sandwich spreads do contain nuts.

If you would like any information on healthy lunches – or take part in a parents group looking at what is a healthy lunch – please speak to Mrs Davies.
